

**NOTES** 

1. The applicable voltage range is 380V to 415V for 50 Hz application. For other voltages, Please consult the factory

**2.** This generating set is of fixed speed

3. (22.1 kVA) is the prime power rating

loadand unlimited hour usage are applied with an average load factor of

80% of the prime rating over each 24-hour period. Noting that a 10% overload is permitted for 1 hour in every

4. (24.2 kVA) is the standby power ratingof the generating set is where a variableload limited to an annual usage up to 500hours is applied, with 300 hours of whichmay be continuous running. Noting that no overload is

of the generating set is where a variable

of 1500 rpm.

12-houroperation.

**Certifications** 

permitted.

# (50 Hz) CPT 24K5

| PF 0.8 @ Ratings |           | Prime Rating | Stand-by Rating |
|------------------|-----------|--------------|-----------------|
| Voltage          | Frequency | 17.68 kWe    | 19.36 kWe       |
| 230/400 V        | 50 Hz     | 22.1 kVA     | 24.2 kVA        |

The above ratings represent the generating set capability guaranteed within ±3% at the reference conditions equivalent to those specified in ISO 8528/1 standard.

### **Control Panel Specifications**

Control panel with (DSE6110 MKII) is an automatic start generating set panel of microprocessor-based design which is capable of interfacing with electronic engine through the can-bus. It is fully configurable by front fascia buttons and PC software as well. If Mains voltage is to be monitored, Auto Mains Failure, So DSE6120MKII shall be offered.

Circuit Breaker is mounted inside the panel 3 Pole as standard and 4 Pole can be offered.

## Construction

| Sheet fabrication    | CNC shearing & bending  |  |
|----------------------|---|--|
| Paint type           | Epoxy painted   |  |
| Paint application    | Oven Spray  |  |
|                      | • IMPACT [EN ISO 6272]  |  |
| Durability tests     | Salt spray resistance [ASTM B117-73]                                |  |

| Engine Speed                  | Bearing temperature RTD           |
| Operating hours               |                                   |

Note 1: some OPTIONAL features could be standard if CANbus is established within electronic engines.

Note 2: Low coolant level protection is standard feature for Gensets above 200 kVA, otherwise it is optional.

Note 3: There is limitation in the number of protections and measurements that can be offered with control panel.

Other types of control Panels & Modules can be offered according to required specifications (DSE 7310/20, 7410/20, 8610, 8810 and Others)

#### **Genset Standard Features**

#### **Assembly:**

Gensets are assembled at CPT Factory at Badr, Cairo in compliance with ISO 8528-8 standard.

#### **Fabrication:**

- The engine/alternator assembly rests on skid with Anti-vibration mounting pads.
- The skid is made up of durable sheet metals and beams exceeding "Vibration & Torsion"
   Resistance Norms.
- A skid built in Fuel Tank is supplied as a standard for Gen-sets up to 700 kVA with fuel gauge, filler cap, fuel inlet and outlet hoses.
- The control panel enclosure is made up of metal sheet .

#### Paint:

- The skid and control panel enclosure are painted with Primer Zinc rich, Zinc epoxy, then last layer as Acrylic - KAPCI.
- Paints passed durability tests conforming to international quality standards.
- Impact (EN ISO 6272)
- Salt Spray Resistance (ASTM B117-73)- Humidity Resistance (ASTM D2247)

#### Works-Testing:

- All Gensets are tested at factory prior to dispatch.
- Test is automatically generated and checked according to ISO8528
- Test certificate is issued for each Genset.

#### **Equipment:**

- Water cooled Radiator with belt driven blower fan and full guarding.
- Electric starter with solenoid Relay.
- Battery Charging Alternator.
- Energized to run solenoid.
- Replaceable fuel, oil and air filter.
- Heavy duty lead acid battery with matching capacity (Amps & CCA).
- One loose supplied Industrial Exhaust Silencer 16 DB noise reduction level.
   (Residential silencer as optional)

#### **Documentation:**

- User Manual for Operation, Installation and Maintenance guidance
- Wring Diagram
- Test Report
- Maintenance Schedule
- Catalogues for Engine, Alternator & AVR

#### **Genset Optional Features**

- Manual & Automatic Transfer Switches,
- Synchronizing & Totalizing Panels
- Fuel / water separator filter
- Water jacket heater (pre-heating system)
- Oil heater
- Fuel heater
- Battery heater
- Anti-condensation Heater
- Air Shut-off Valve
- Oil Sampler
- Pre-lube Oil Pump
